Twin Cummins QSB 6.7 480 hp

Twin Cummins QSC 8.3 550 hp 3000 rpm

# A Complete Sport Fishing Platform

## **Fish/Cruise-ability**

Having 580 gallons of fuel, a 13'-8" beam and weighing in at 29,000 lbs, you can run anywhere, anytime. This mid-size offshore sport fisher is built to the standards of the seasoned offshore seamen. Twin diesels allow for maximum fuel efficiency. Exhaust is through lift mufflers for quieter running.

## **Cockpit**

120 square feet of cockpit laid out for the particular fisherman. Highlighting 4 built in Fish/bait tanks. Room for mounting a fighting chair, transom door, coaming pads and a large built-in fiberglass locker.

## **Bridge**

Tournament layout provides wrap-around helm for extensive electronic equipment and two adjustable helm seats. The seven-foot padded lounge for ward of console makes a secure and accessible area for rod storage.

## **Main Salon**

The main salon is spacious, open and functional - Skipjack signature. A double door measuring 35" provides generous access into the salon. Centrally located controls for air conditioning and heating is standard equipment. The nine-foot galley (to port) appointed with granite style counter top and sink, four-burner electric stovetop, built in microwave, and side-by-side refrigerator/freezer demonstrate that this boat is designed and built to spend time offshore. Complimenting the galley is a large settee (8'6"x 46") to starboard.

## **Master Stateroom**

Features a queen size island berth (6'7"x 5') with two cedar lined hanging lockers, several drawers and storage area under berth and private access to the head. Direct and indirect lighting accentuates the simplicity and warmth of the large stateroom. A large translucent hatch offers natural light and ventilation.

## **Guest Stateroom**

Upper and lower berths measure 65" x 26" (top) and 65" x 35" (bottom). Large cedar lined hanging locker and drawers below bottom berth. Stateroom appointed with translucent hatch.

## **Head Compartment**

Access to the head is from the hallway. Electric designer head with a 50-gallon holding tank, a granite style counter top and sink, with a stall shower and seat. A translucent hatch provides natural light and ventilation.

## **Power Plants**

A variety of twin diesel engine packages are offered in order to meet the specific needs of the owner. Access to engine room is from the cockpit or salon. Generator is standard and aft of the 580-gallon aluminum fuel tank.

### **Comfort Features**

- Outrigger Options
- 2 Cabins for sleeping
- Fully enclosed shower and head
- Sleeps 4+ with air conditioning
- Large comfortable salon
- Removable swimstep
- Flush/compact style trim tabs
- Large transom door
- Companion sleeping quarters with double bunk
